

This doctor is playing his own role in building a healthy society

Description

Every doctor plays his role in building a healthy society. Among such doctors treat the patients with their special expertise. In that regard Dr. M. Narasimha Rao from the city of Hyderabad fits perfectly.

HYDERABAD (INDIA):

He is known for his unique talent and potential of knowing and detecting the diseases present in the human body by just checking or touching the Hand Veins and Pulse. There was a time, where this type of talent was only mastered by the well-known Hakim's and Vaid's after lots of research. Gradually this type of unique talent has perished. Now a days the diseases can easily be detected by the modern technologies and has become more expensive. However there are only few doctor's at present, who mastered this talent and he is one among them. It is an honour to introduce Dr. M. Narsimha Rao who is an Ayurveda Doctor from Hyderabad, has his own clinic at Bagh Amberpet. Patients from other states like Maharashtra, Karnataka and also from overseas come to his clinic to get treatment and recover from the harmful diseases. He treats patients suffering from Cancer, Thyroid, Diabetics, Heart failure, Chronic Kidney disease, Chronic Liver disease and various other health problems. Dr. Narsimha Rao (M) has offered successful treatment to thousands of patients to whom the other Doctor's declared the treatment is not possible. Dr. Narsimha Rao (M) had practiced and mastered this unique talent from his Father. His Father Dr. M. Ramana Rao was a renowned and famous for this unique potential of knowing the disease by touching the Pulse and Vein. Dr. Narsimha Rao (M) from his childhood followed his father footsteps and learned the talent of detecting the diseases by touching the Pulse and Veins, and after that he also acquire a degree in B.A.M.S, MD (Y&N). For his excellence services he has been recognized and awarded by many organizations like Association of Ayurvedic Professionals of North America, Lions club International ,World Human Rights Protection Commission (ECOSOC, United Nations) and Bharat Gaurav Shree Samman Parishad (Niti Ayog, Govt of India). Dr. Narsimha Rao (M) had researched a lot in Medicines, because of which the patients are getting the prescription according to their health issues and getting recovered very comfortably. He will be available in his Clinic for 5 days in a week (Sunday & Thursday) from morning (11 AM to 4 PM). First come First serve will be followed.

Sri Raghavendra Ayurveda Clinic located in Bagh Amberpet, Hyderabad was founded by his father Dr. M. Ramana Rao four decades ago. He was a qualified and great scholar of Ayurveda. He treated some millions of people with various health issues. He was specialist in pulse reading and was diagnosing the health issues accurately without the help of medical reports. His treatment satisfied almost all patients whatever may be the health issues. He was expired in 2013 after providing his services to the needy people .His father taught him the pulse reading technique the method of identifying various diseases and its stages. After gaining experience this technique helped him to identify diseases easily. Dr. Narasimha Rao positive words and responses give patients hope for recovery. He successfully treated many cases which were

rejected by allopathic doctors. For example heart disease, chronic kidney disease, chronic liver disease, diabetes, cancer, thyroid, arthritis, covid-19, HIV, hepatitis-B, etc., rare herbal combinations are used as per the stages of the diseases and condition of the patients. Thus many patients from India and abroad are taking treatment at Dr. M. Narasimha Rao's Clinic . News magazines and channels also spread his achievements and his treatments. Dr. M. Narasimha Rao done research on herbs and developed a formula that successfully eradicated Covid-19 in 1st wave of 2020.
