- **â?ªï¸• Metaverse chapter from the book revealed to be part of the NFSU curriculum**

Hyderabad / Gandhinagar (Gujarat): Padma Shri awardee Dr. J.M. Vyas, Founding Vice-Chancellor of the National Forensic Sciences University (NFSU), congratulated tech-journalism expert Muddam Narasimha Swamy, author of Artificial Intelligence in Modern Journalism.

During a visit by a delegation of Telangana journalists to NFSU in Gandhinagar, Gujarat, Dr. Vyas met with the team and reviewed Swamyâ??s book. He commended the authorâ??s analysis of modern technology, artificial intelligence, and their application in journalism. Notably, Dr. Vyas shared that the chapter on the â??Metaverseâ?? from the book is currently taught at NFSU. Following the interaction, he felicitated Muddam Narasimha Swamy with a shawl. PIB IIS officer Varganti Gayatri and the delegation of Telangana journalists were present at the event.

Dr. Vyas noted that with the rising influence of artificial intelligence, the metaverse, and digital technologies in journalism, books covering these topics serve as valuable resources for journalists, media students, and researchers.

Insights into Forensic Education and Research

Organized by the Press Information Bureau (PIB) Hyderabad, the visiting delegation of Telangana journalists explored NFSU to gain insight into its academic, research, and training initiatives. Dr. J.M. Vyas briefed the group on various departments, including Forensic Science, Behavioral Science, Cybersecurity, and Digital Investigation. The team subsequently toured the universityâ??s advanced laboratories and digital forensics infrastructure.

Hyderabad / Gandhinagar (Gujarat): Author and senior journalist Muddam Narasimha Swamy, who has written the book *AI in Modern Journalism*, received a rare honour at the National Forensic Sciences University (NFSU) in Gandhinagar, Gujarat.

Dr. J.M. Vyas, Founder Vice-Chancellor of NFSU and Padma Shri awardee, appreciated Swamy for his contribution to the emerging field of AI journalism and felicitated him with a shawl during an interaction with a delegation of journalists from Telangana.

Dr. Vyas went through Swamy's book and lauded the way it analyses the role of Artificial Intelligence, emerging technologies and digital transformation in journalism. He particularly highlighted the chapter on the Metaverse, stating that the subject is being taught at NFSU.

The Vice-Chancellor noted that books focusing on AI, the Metaverse and digital technologies are valuable resources for journalists, media students and researchers in the rapidly evolving media landscape.
