STORY:

On a Sunday night, the protagonist Vikram who is an intelligence officer on duty gets a call that a murder happened at shamshabad farmhouse from their subordinates. When he investigates the farmhouse murder case he is getting calls one by one like kidnaps and murders happening in different places in the city. Vikram gets confused and cannot understand what's going on. Every murder and kidnap was happening very strategically. Suddenly he gets the call from antagonist Shiva who is doing all these things with his team. Shiva gives six hours to solve so many tasks to Vikram. Why Shiva does all these things and how Vikram solves the murder and kidnap mysteries in one night. That is the story of the movie.
